Career Objective

Detail-oriented Information Technology student with strong knowledge of Python, SQL, Excel, Power BI, Data Analytics and Full Stack Development. Passionate about building data-driven solutions, developing database applications, and creating interactive dashboards. Seeking opportunities to apply technical skills in Data Engineering, Full Stack Development or Data Analytics roles while contributing to innovative projects.

Education

Erode Sengunthar Engineering College, Erode

2023 – 2027

Bachelor of Technology (Information Technology)

CGPA: **8.87 / 10** (Up to 5th Semester)

Government Model Girls Higher Secondary School, Namakkal

2023

Higher Secondary Education

Percentage: **82%**

Internship Experience

Data Analytics Intern — Codec Technologies (Remote)

- Completed a one-month online internship focused on Data Analytics.
- Worked with Excel, Python, and Power BI to clean, preprocess, and analyze datasets containing 5,000+ records.
- Assisted in transforming raw data into structured datasets for reporting and dashboard creation.
- Created insight reports and supported performance analysis using visualization techniques.

Projects

Recruitment Analytics Dashboard

Tools Used: SQL, Excel, Pivot Tables, Pivot Charts, Slicer

- Developing an interactive Recruitment Analytics Dashboard using Microsoft Excel.
- Built Pivot Tables and Pivot Charts to analyze candidate selection, rejection, college-wise recruitment, job role distribution, and aptitude performance.
- Designed KPI cards to display Total Candidates, Selected Candidates, Rejected Candidates, and Selection Rate.
- Implemented interactive slicers for dynamic filtering and dashboard visualization.

Expense Tracker System

Tools Used: HTML, CSS, JavaScript, MySQL

- Developed a responsive web application to manage daily expenses.
- Integrated MySQL database for secure storage and retrieval.
- Generated monthly and category-wise expense reports using SQL queries.

Library Management System

Tools Used: Python, MySQL, SQL

- Developed a database-driven library management system.
- Implemented SQL queries for issue, return, and record management.
- Improved data organization through structured database operations.

MyCampus ERP System

Tools Used: React.js, Supabase, SQL, JavaScript, HTML, CSS

- Developed a full-stack Campus ERP System for managing academic and administrative activities.
- Implemented responsive UI components and integrated Supabase for authentication, database operations, and real-time data handling.
- Collaborated as a team member to design and develop a scalable web application with efficient frontend-backend communication.

Technical Skills

Programming	Python, SQL, JavaScript (Basic)
Web Technologies	HTML, CSS, Rest API
Databases	MySQL, MongoDB
Data Analytics	Excel, Power BI, Pandas, NumPy
Tools	Git, GitHub, VS Code
Concepts	DBMS, OOPS, DSA (Basics)
Soft Skills	Problem-solving, Attention to Detail, Communication, Collaborative Working

Certifications

- Python for Data Science (Elite) – NPTEL
- Python Programming – Infosys Springboard
- HTML5 & CSS3 – Infosys Springboard
- Beginners of SQL – Alison
